

# Iritech Irishield MK2120UL

The IriTech IriShield MK2120UL / MK2120U single USB iris scanner is a high-performance biometric device that is suitable for identification and secure applications. It has an intelligent auto-capture camera module and a biometric login capability through local iris scan. These requirements ensure that STQC certification and compliance with international standards are safe to use. It can be easily interfaced with different iris based security systems. The device can be employed in banking industries, Government agencies and identity verification. The size and overall simple design make it more secure and easier to use. Supports unintermittent operation within the spheres which need trustworthy biometric identification.

## FEATURES

Secure Data

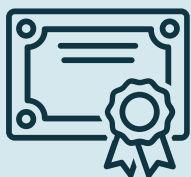

Auto Capture

USB Powered

Tamper-proof

STQC Certified

OS Support

# Iritech Irishield MK2120UL

## Specifications

Sensor	Dual iris capture with near-infrared illumination
Operating System	Windows 7, 8, 8.1, and 10
Interface	USB 2.0 High Speed
Image Compression	ISO/IEC 19794-6, ANSI 381-2004
Iris recognition time	< 3 seconds
Standards	ISO/IEC 19794-6 and ANSI 381-2004 compliant, FBI IAFIS IQS Appendix F compliant
Dimensions	150 x 150 x 120 mm
Weight	500 grams
Power Consumption	5V DC, 750 mA
Operating Temperature	0°C to 40°C
Humidity	10% to 90% RH, non-condensing
Durability	1 million iris captures
