

IRITECH IRISHIELD USB BK 2121U DUAL IRIS SCANNER

IriTech's IriShield USB BK 2121U is one of the best biometric devices used for iris imaging and recognition. It delivers lightning-fast results in 0.5 seconds, NIST certified, combination of secure processing in the application, and STQC certification for assuring compliance. This can be done by ensuring that the company produces goods that are of world class standards The device supports various operating systems and interfaces and can be connected through USB and UART interfaces hence can easily be incorporated with many operations.

FEATURES

**High Speed
Matching**

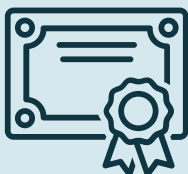

Dual Iris Capture

USB Powered

Sealed Casing

STQC Certified

OS Support

IRITECH IRISHIELD USB BK 2121U DUAL IRIS SCANNER

Specifications

Sensor Type	Dual iris camera
Capture Distance	13.5 – 14.5 cm (5.3 – 5.7 in) from the front of camera lens
Grayscale	8 bit
Speed/API Interface	High-speed USB connectivity
Surface Durability	Resistant to scratches, impact, vibration, and electrostatic shock
Humidity	0-90% (non-condensing)
Device Name	IriShield™ - USB BK 2121U
Eye Illumination	Infrared
Device Size	200 x 145 x 72 mm (7.9" x 5.7" x 2.8")
Operating Humidity	0-90% (non-condensing)
Supported OS	Microsoft Windows, Linux (x86-64), Android
Operating Temperature	0 °C .. +50 °C
Product Weight	200 g
